Latte Art Standards

Worksheet

Latte Art Standard:	Exceller	Excellent Standard:	Reasonable Standard:		Unaccer	Unacceptable standard:
Contrast	•	Sharp contrast between clean white foam of the pattern against the rich colour of the crèma. (Crèma colour may vary based	 The pattern can be cle degree of "marbling" and the brown crèma 	The pattern can be clearly identified but there is a degree of "marbling" between the white foam and the brown crèma	•	Contrast is generally poor so that the pattern is hard to
		on coffee used).	• There are areas	There are areas of "beige" where the crèma and		distinguish
	•	This sharp contrast should be	foam have mixed		•	Much mixing of the
		demonstrated throughout the majority of the pattern to be considered excellent.				white foam into the crèma
Harmony, size	•	For right-handed drinkers the pattern	 For right-handed 	For right-handed drinkers the pattern is	•	For a right-handed
and position in		should ideally be presented with its base	presented with it	presented with its base between 4 – 8 o'clock		drinker the pattern is
dno		at 6 o'clock (tolerance between 5 – 7	 The size of the p. 	The size of the pattern is considered slightly too		poured upside down
	•	o'clock) and the handle at 3 o'clock.	small for the space available.	ce available.		when the handle is
	•	I ne size of the pattern should suit the size	• Ine size of the particle particle particle.	he size of the pattern is too big for the cup and ", ", ", ", ", ", ", ", ", ", ", ", ",		positioned at 3
		of the top of the cup, big enough to fill the	looses its "frame" of crema	of crema		o clock.
		space wille still leavillg space to the euges	Ine pattern in pt pag cido of tho ci	The pattern in poorly positioned in the cup e.g. to		
	,	-	סוום פומב סו רוום כ	one side of the cup of touching the side/top/base.		
	•		 Multiple pattern 	Multiple patterns are unbalanced in their size or		
		then they should positioned in a	quality, but still د	quality, but still clearly identifiable.		
		complementary manner to each other,				
		giving an overall attractive design.				
Symmetry of	•	Key free pour patterns such as hearts,	 Symmetry of the 	Symmetry of the pattern is fair but not considered	•	Symmetry is
pattern (if		rosettas and tulips need to have good	excellent			considered poor
required)		symmetry to be considered excellent. The			•	Pattern is hard to
		pattern should be a good mirror image if				distinguish and so
		cut down the middle.				symmetry is difficult
	•	"Absolute" symmetry is not assessed, e.g.				to assess
		In each lear of a rosetta, but symmetry in				
		the overall shape of the pattern.				
Foam quality	•	Foam Quality Level 1 – 2	 Foam Quality Level 2-3 	rel 2-3	•	Foam Quality Level 4
						-5
Identification of pattern	•	Pattern is clearly identified and attractive	Pattern is clearly identified	identified	•	Pattern is not clearly identified
